

TELEHEALTH Access NORTHERN SOMERSET

SOMERSET Connect Center

263 Main Street, Bingham, Maine 04920

Somerset Economic Development Corp. welcomes Somerset County residents to utilize the **free** Somerset Connect Center to virtually meet with health care providers in a private space. We realize that often our northern rural residents find it challenging to drive to Boston, Portland, Augusta, Waterville, Bangor or even Skowhegan for a checkup, lab review, follow-up appointment, etc. or may not have internet access at home.

Conveniently located in Bingham (formerly the Quimby School), the Somerset Connect Center's private Telehealth Access room offers **free** high-speed internet, private office space, and a laptop or tablet (upon request) for virtual telehealth appointments.

The telehealth private office space may be reserved for 1-hour increments at www.somersetbroadband.org or by calling 207.220.7735.

Please contact SEDC Broadband Director, Liz Caruso, for more information on the Somerset Connect Center.
